

TSTF 2019 Retrospective

- 2020 marks the 17th year (2003) of the TSTF as a jointly sponsored Owners Group activity (25 years as an organization, 1995)
- One change in TSTF membership (Dwi Murray for David Gullott)
- Travelers:
 - Five travelers approved:
 - TSTF-557, Rev. 1, Spent Fuel Storage Rack Neutron Absorber Monitoring Program, (All) 1/15/2019
 - 163 Review Hours
 - TSTF-566, Rev. 0, Revise Actions for Inoperable RHR Shutdown Cooling Subsystems, (BWRs) 2/21/2019
 - 347 Review Hours
 - TSTF-569, Rev. 2, Revise Response Time Testing Definition, (Westinghouse & Combustion Engineering) 8/14/2019
 - 332 Review Hours
 - TSTF-541, Rev. 2, Add Exceptions to Surveillance Requirements for Valves and Dampers Locked in the Actuated Position, (All) 12/10/2019
 - 671 Review Hours
 - TSTF-568, Rev. 2, Revise Applicability of BWR/4 TS 3.6.2.5 and TS 3.6.3.2, (BWRs) 12/17/2019
 - 713 Review Hours
 - Two traveler revisions submitted:
 - TSTF-568, Revision 2, "Revise Applicability of BWR/4 TS 3.6.2.5 and TS 3.6.3.2," (BWR) 5/21/2019 (approved)
 - TSTF-541, Revision 2, "Add Exceptions to Surveillance Requirements for Valves and Dampers Locked in the Actuated Position," (All) 6/18/2019 (approved)
 - Three new travelers submitted:
 - TSTF-554, Revision 0, "Revise Reactor Coolant Leakage Requirements," (All) 5/7/2019
 - TSTF-582, Revision 0, "RPV WIC Enhancements," (BWR) 8/28/2019
 - TSTF-576, Revision 0, "Revise Safety/Relief Valve Requirements," (BWR) 12/13/2019

TSTF 2019 Retrospective

- The NRC expended 1,253 hours reviewing travelers in 2019.
- The TSTF exchanged 26 letters with the NRC:
 - 14 from the NRC (excludes meeting notices and summaries)
 - 12 from the TSTF
- The TSTF held 13 meetings and 15 teleconferences with NRC.
- Other TSTF Activities:
 - Withdrew recommendation for adoption and removal of commitments regarding TSTF-493, "Clarify Application of Setpoint Methodology for LSSS Functions," 6/18/2019.
 - Supported the NEI Regulatory Issues Task Force (RITF) on completion and issuance of NEI 18-03, "Operability Determination."
 - Supported the NEI Risk Informed Technical Specifications Task Force (RITSTF) in resolving the use of new PRA methods with TSTF-505, "Provide Risk-Informed Extended Completion Times."
 - Supported the EPRI Steam Generator Management Program (SGMP) in development of changes to the TS-required inspection frequencies for steam generator tubes.
