Dear Sir(s) (and Madames),

This sounds, to me, like a bureaucratic "harumph" of something that not only should they be taking in tow regardless of the "timeliness" of the submittals, and they should please be advised that I acted within 24 hours of when I found out that the deadline was supposed to be on Feb. 18th (or so I thought it was 2/18/2020).

Furthermore, on Feb. 12, 2020, I was unaware of the need to submit email of protest to the appointment of Holtec to take over at Indian Point, so I couldn't have very well sent it in then, could I?

Sincerely, and in total dismay and protest against the so-called "experts", bureaucrats and powers that be on the NRC - Paul Corell, 476 State Street, Brooklyn, NY 11217
