POST OFFICE 764

COLUMBIA, SOUTH CAROLINA 29218

O. W. DIXON, JR.
VICE PRESIDENT
NUCLEAR OPERATIONS

December 17, 1982

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Virgil C. Summer Nuclear Station
Docket No. 50/395
Operating License No. NPF-12
Technical Specifications

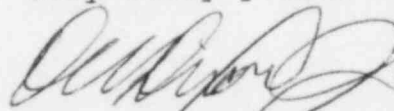

Dear Mr. Denton:

In our letter to you dated October 8, 1982, South Carolina Electric & Gas Company (SCE&G) provided a suggested change to Figure 3.2-3 of the Virgil C. Summer Nuclear Station Technical Specifications. After we requested that change, we decided to amend the Figure again for clarification purposes. As Attachment 1 please find a revised Figure 3.2-3 to replace that suggested in our October 8, 1982 letter. This new change does not affect the justification for the initial change.

Additionally, SCE&G requests that Table 3.8-1 be revised (see Attachment 2) to add a containment penetration conductor overcurrent protective device for the steam cleaning machine permanent power source. This change does not impact the safety evaluation as discussed in the Final Safety Analysis Report (FSAR) and is considered administrative in nature. Accordingly, a check in the amount of twelve hundred dollars (\$1200.00) is provided.

If you have any questions, please advise us.

Very truly yours,

O. W. Dixon, Jr.
