Thank you for your 12-10-82 invitation to attend the "evidentiary hearing" in White Plains on Jan 10th '83.

The "Ceremonial Courtroom" is most appropriate for the continuation of this deception.

**Ceremony:** The doing of some formal act in the  
manner prescribed by authority or  
usage.

For more detailed definition please refer to

A. Judge Louis Carter

B. Daniel Ford's book THE CULT OF THE ATOM

I do hope to be at the hearing on Jan 10th if the "accident that's waiting to happen" at Indian Point does not cause a postponement of the hearing. There are a great many people who worry about what it is that you expect to hear at the hearing that you have not already heard repeatedly.

Sincerely

Nat Mantell
