Document Control Desk  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Subject: PWR Owners Group, Risk Management Committee  
**Notification of the 2<sup>nd</sup> SHIELD® Generation III Shutdown Seal Test per  
Limitations Set Forth in PWROG-14001-P-A**

This letter serves to notify the U.S. Nuclear Regulatory Commission (NRC) of the second test of the SHIELD® Shutdown Seal, which has been in service for 4.5 years. As the limitations prescribed in PWROG-14001-P-A, the PWR Owners Group (PWROG) will perform additional tests, and when the time for each tests comes due, the NRC is notified so that they may decide if their attendance at the testing facility is needed.

If the NRC wishes to send personnel to witness the test, the NRC should notify Mr. W. Anthony Nowinowski no later than March 25, 2020 by phone at (412) 374-6855. The test is currently scheduled to be performed between April 29 and May 2 of 2020 at the Westinghouse Churchill Facility.

If you have any questions, please do not hesitate to contact me at (602) 999-2080 or Mr. W. Anthony Nowinowski, Executive Director of the PWR Owners Group, Program Management Office at (412) 374-6855.

Sincerely yours,

Michael Powell  
Chairman and COO  
PWR Owners Group
