Narrative Report
for LER 50-321/1982-101

On 12/8/82, at 2225 hours CDT, a bomb threat was received at gate 1. The caller stated that the bomb was located in the plant switchyard. A bomb threat checklist was initiated and security headquarters and the operations supervisor were notified. Operations initiated a response per the "NOTIFICATION OF UNUSUAL EVENT" procedure and the "BOMB OR OTHER OVERT THREATS" procedure. A security officer confessed that he made the call from the security badge island in security headquarters to gate 1 as a joke. The security officer was terminated from the company.

The health and safety of the public were not affected by this non-repetitive event.
