Dear Ms. Adensam:

In the Matter of) Docket Nos. 50-327
Tennessee Valley Authority) 50-328

In accordance with 10 CFR Part 50.59, we are enclosing 40 copies of a requested amendment to the operating licenses DPR-77 and DPR-79 to change the Sequoyah Nuclear Plant units 1 and 2 technical specifications (Enclosure 1). The proposed amendment requests a change in the surveillance requirements for the Emergency Gas Treatment System (EGTS) cleanup subsystems. The justification to support those proposed changes is provided in Enclosure 2.

In accordance with the requirements of 10 CFR Part 170.22, we have determined the proposed amendment to be Class III for unit 1 and Class I for unit 2. These classifications are based on the facts that the changes involve a single safety issue and that the changes apply to two identical units on the same site. The remittance fee of \$4400 is being wired to the Nuclear Regulatory Commission, Attention: Licensing Fee Management Branch.

If you have any questions concerning this matter, please get in touch with J. E. Wills at FTS 858-2683.

Very truly yours,
