Dear Sir:

The NRC was notified of a potentially reportable deficiency in Reference (A), an Interim Report was transmitted by Reference (B), and a time extension was requested by reference (C). At that time, it was estimated that a Final Report would be available by January 13, 1983.

Due to the extensive evaluation required, it is now expected that this information will be finalized by March 22, 1983, when a complete report will be submitted.

There is no new information or change to the Interim Report at this time.

Very truly yours,
