Washington, D. C. 20555

Reference: Letter dated March 1, 1991 from J. A. Bailey, WCNOC
to U. S. Nuclear Regulatory Commission
Subject: Docket No. 50-482: Process Control Program Submittal

Gentlemen:

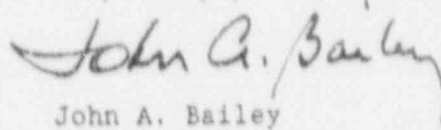

The semi-annual Radioactive Effluent Release Report was submitted to the Nuclear Regulatory Commission on March 1, 1991 by the above referenced letter. This report indicated that a copy of the revised Process Control Program would be submitted by March 29, 1991.

Attachment I is a copy of the revised Process Control Program (PCP) for Wolf Creek Generating Station (WCGS). Attachment II provides a detailed description of the changes to the PCP made during the reporting period defined by section 6.9.1.7 of the WCGS, Unit No. 1, Technical Specifications.

If you have any questions concerning
Mr. H. K. Chernoff of my staff.

matter, please call me or

Very truly yours,

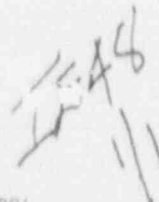

John A. Bailey
Vice President
Operations
