Docket No. 50-267

SUBJECT: FORT ST. VRAIN LEVEL OF PROPERTY INSURANCE

REFERENCE: NRC letter, Erickson to Crawford, dated January 18, 1991
(G-91013)

Gentlemen:

In accordance with 10 CFR 50.54(w)(2), Public Service Company of Colorado (PSC) hereby reports the following levels and sources of nuclear property insurance for the Fort St. Vrain Nuclear Generating Station.

<u>Type of Insurance</u>	<u>Insurance Carrier</u>	<u>Insurance Amount</u>
Primary Property Damage Insurance	American Nuclear Insurer's (ANI)	\$304,000,000
Excess Property Damage Insurance	Nuclear Electric Insurance Limited (NEIL II)	\$1,000,000
TOTAL PROPERTY INSURANCE COVERAGE:		\$305,000,000

These levels of insurance reflect reductions from the nuclear property insurance levels identified in 10 CFR 50.54(w)(1). These reductions have been made pursuant to the NRC-approved property insurance exemption request forwarded to PSC in the above referenced letter, that allowed PSC to reduce its property insurance to a level of \$169,000,000. The insurance levels indicated above reflect a reduction to this approved level, as well as supplemental property insurance purchased at PSC's discretion to insure balance-of-plant assets.
