ENCLOSURE 2

DESCRIPTION AND JUSTIFICATION
(TVA BFNP TS 176 SUPPLEMENT 3)

In accordance with 10 CFR 73.40(d) each power reactor licensee is required to provide for an independent review of its safeguards contingency plan at least once every twelve months. This specification change, TS 176 Supplement 3, adds the 10 CFR 73.40(d) required audit to the Browns Ferry technical specifications.

Addition of this required audit to the specifications is made at the request of the U.S. NRC staff. This change to the specifications will have no adverse effect on plant safety.
