Subject: Operator Licensing Examination Site Visit

Reference: D. G. Eisenhut letter of January 11, 1983 (Generic Letter 83-01)

Dear Mr. Eisenhut:

Your letter dated January 11, 1983, requested certain information pertaining to requests for site visits to conduct operator licensing examinations or instructor certification examinations. We have currently not established a program for instructor certification examinations.

We do request site visits as follows for the category 5 examination, initial licensing of personnel at operating facilities or for upgrading a license from Reactor Operator to the Senior Operator level. We have included tentative numbers of personnel to meet our planned manning of six crews. It must be realized that these numbers may fluctuate depending on our success on retention of licensed operators.
