Subject: Revised Training Recovery Plan

Dear Mr. Keppler:

The NRC letter, R. L. Spessard to W. C. Gerstner, dated December 20, 1983 identified two deficiencies in the coverage of the Quality Recovery Plan. One of these was described as the recovery plan for training being excluded from the Quality Recovery Plan.

Subsequent to receipt of your letter, we reviewed and revised our training recovery plan to more accurately describe the status of recovery activities associated with training.

Attached for your information is a copy of the revision of the Training Recovery Plan. Earlier revisions and associated schedules are available at the Clinton site for your review.

Sincerely yours,

D. P. Hall
Vice President
