RE: Perry Nuclear Power Plant
Docket Nos. 50-440; 50-441
Response to I. E. Report

Dear Mr. Norelius:

Please reference Inspection Report 50-440/81-16; 50-441/81-16, attached to your letter dated January 5, 1982, which identified areas examined by Mr. I. T. Yin during his inspection conducted November 17-20, December 10-11 and 15, 1982.

In a letter dated January 28, 1982, we informed you of the measures taken to resolve the three (3) Severity Level V violations cited in the referenced report. This letter is intended to modify our response to Noncompliance 440/81-10-01; 441/81-16-01.

As discussed on September 23, 1982 between Mr. I. T. Yin of your office and Mr. T. G. Swansiger of The Cleveland Electric Illuminating Company, the corrective action identified in our response remains the same, but date of completion of action is now scheduled for June 30, 1983.

It is our intention to keep the Resident Inspector, Mr. M. L. Gildner, informed of status and activity in this area.

Sincerely,

Dalwyn R. Davidson
Vice President
