Dear Mr. Schwencer:

SUBJECT: Grand Gulf Nuclear Station
Units 1 and 2
Docket Nos. 50-416 and 50-417
License No. NPF-13
File 0260/L-860.0
Physical Security Plan,
Revision 5, Response to NRC
Comments
AECM-83/0119

In a letter to Mr. Harold R. Denton, AECM-83/63, dated January 28, 1983, Mississippi Power & Light Company (MP&L) responded to a letter from Mr. Albert Schwencer, Chief of Licensing Branch 2 to Mr. James P. McGaughy, Jr., dated November 22, 1982, concerning comments on Revision 5 to the Grand Gulf Nuclear Station Physical Security Plan.

In that letter MP&L estimated that a response would be sent to the Nuclear Regulatory Commission (NRC) along with Revision 7 of said plan on or before February 28, 1983. That date was based on an estimate of the administrative effort required to make and approve the changes, as well as anticipated resources available as of the 28th of January, 1983. The amount of review required and the need to apply resources on other issues, however, has forced MP&L to reassess its estimate. We now intend to respond to NRC's concerns by March 18, 1983.

If you have any questions please advise.

Yours truly,

L. F. Dale
Manager of Nuclear Services
