Mr. Harold R. Denton  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

SUBJECT: Revisions to the Calvert Cliffs Training and Qualification Plan (T&Q)

Dear Mr. Denton:

This packet contains one (1) complete reissue of the T&Q Plan. Currently, NRR is assigned Copy #2.

The changes have been highlighted in the right column of each affected page.

These changes do not represent a degradation in the Security System and are submitted under 10CFR50.54(P) requirements.

Both the revised and outdated pages are Safeguards Information and must be protected under 10CFR73.21 requirements. To ensure compliance with this regulation, the outdated manual must be destroyed by shredding, burning or cutting into 1/2 inch size pieces or smaller.

Please sign the letter of transmittal and have it returned to:
