Re: The Cleveland Electric Illuminating Co.,
et al. (Perry Nuclear Power Plant,
Units 1 and 2), Docket Nos. 50-440, 50-441

Dear Ms. Hiatt:

Applicants' "Answer to Ohio Citizens For Responsible Energy Interrogatories 9-26 through 9-37 Relating to Issue No. 14," dated February 25, 1983, did not include a response to the relevant portion of OCRE General Interrogatory 9-52. That Interrogatory, and Applicants' Response, are as follows:

Interrogatory 9-52

For each interrogatory above, identify the person(s) responsible for the response and provide the professional qualifications for each such person. If any documents were relied upon in responding which were not previously identified, identify and produce these documents.

Response:

The person responsible for Applicants' Responses set forth in "Applicants' Answer to Ohio Citizens For Responsible Energy Interrogatories 9-26 through 9-37 Relating to Issue No. 14," dated February 25, 1983, is Ray V. Tanney, whose name appears on the affidavit attached to Applicants'

RAY V. TANNEY

Associate Engineer, Nuclear Design & Analysis Section, Nuclear Engineering Dept., Cleveland Electric Illuminating Company

My name is Ray V. Tanney. My business address is Perry Nuclear Power Plant, 10 Center Road, Perry, Ohio, 44081. I am an Associate Engineer in the Nuclear Design & Analysis Section of the Nuclear Engineering Department. I have held this position since November, 1981. My responsibilities include the technical support for PNPP's licensing section & the development of PNPP's design program for implementing Regulatory Guide 1.97 Rev. 2. In addition, I have also been the responsible engineer for the design & procurement of Radiation Monitoring Systems.

I received my Bachelor of Nuclear Engineering degree from The Pennsylvania State University in 1973.

In the period between November, 1978 and November, 1981, I was employed at Victoreen, Inc., as both Project Engineer & Jr. Project Manager. My primary responsibility was to coordinate or assist in the design & manufacture of Radiation Monitoring Systems for Nuclear Power Plants. In addition, I was involved in specific design projects to develop Radiation Monitoring Systems which would meet new or upcoming regulatory requirements.

In the period between July, 1973 and November of 1978, I was employed at the Newport News Shipbuilding & Drydock Company as a Design Engineer in the Nuclear Design Department. My responsibilities included technical development & design of reactor plant coolant systems and system installation support for construction of SSN688 class submarines. In addition, I served as Mechanical Test Engineer on specific submarines during testing & start-up phases.
