Mr. Harold Denton
NRC
Washington, D.C. 20555

Dear Mr. Denton,

I am a citizen of Saginaw County who is growing more concerned by the day about the nuclear plant in Midland. It seems incredible that mistakes and mismanagement has run the cost of that project to nearly \$4 billion dollars. It further seems grossly unfair to expect the people of Michigan to pay for these costs and take the risks that this plant entails.

If I were to mismanage my own affairs in such a careless manner by running up a comparatively high debt I'm sure Consumers would be first in line to cut off my service.

I do not believe we need this plant, and certainly not at this price.

Sincerely,

Herbert K. Bailey
