Gentlemen:

The Cincinnati Gas & Electric Company (CG&E) wishes to continue certain work activities which do not violate the spirit of the November 12, 1982 Show Cause and Order of Immediate Suspension of Essential Construction. CG&E would like NRC review and concurrence of the following items prior to their performance:

1) FLANGED JOINTS

Both the H. J. Kaiser Company, CG&E Quality Assurance, and the Quality Confirmation Program will need to have flanged joints taken apart on safety related systems in order to perform inspections. CG&E feels that the disassembly and reassembly of flanged joints in accordance with approved site procedures in order to support inspections should not be considered as "enhancing construction".

2) RELEASE OF PIPING FROM THE WAREHOUSE FOR TESTING PURPOSES.

CG&E requests the release of the following 48 pieces of essential Small Bore Piping from the H. J. Kaiser Warehouse:

8303090212 830303  
PDR ADOCK 05000358  
A PDR

FEB 28 1983

Mr. J. G. Keppler  
EAB-SOL-29

1/2" Schedule 40, 80, 160, XXS  
3/4" Schedule 40, 80, 160, XXS  
1" Schedule 40, 80, 160, XXS  
1 1/4" Schedule 40, 80, 160, XXS  
1 1/2" Schedule 40, 80, 160, XXS  
2" Schedule 40, 80, 160, XXS

The Piping will be both stainless steel and carbon steel cut in approximately six (6) foot lengths. The Piping will be used as a test material on a Hydraulic Pipe Bender and the resulting data used in a 50.55(e) Report M-67. The released material will not be used for physical Construction.

A prompt reply to this request would be appreciated.

Very truly yours,

THE CINCINNATI GAS & ELECTRIC CO.

By   
E. A. Borgmann  
Senior Vice President
