Mr. Darrell G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulations
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Eisenhut:

River Bend Station - Unit 1
Docket No. 50-458

This letter is in response to Generic Letter 83-01, "Operator Licensing Examination Site Visit," dated January 11, 1983. Generic Letter 83-01 requested all Applicants and Licensees to identify requests for site visits between now and December 31, 1985 to conduct operator licensing examinations or instructor certification examinations.

Gulf States Utilities Company's current plans are to submit applications to have "cold" license examinations administered to approximately forty (40) individuals. The projected date of these applications will be such as to allow the examinations to be given during December, 1984. As currently planned, each individual will request to take both the Reactor Operator (RO) and Senior Reactor Operator (SRO) examinations.

Sincerely,

J E Booker
