Dear Sir:

The NRC was notified of a potentially reportable deficiency in
Reference (A), an Interim Report was transmitted by Reference (B), and
time extensions were requested by References (C) and (D). At that time,
it was estimated that a Final Report would be available by February 28,
1983.

Due to the extensive evaluation required, it is now expected that this
information will be finalized by March 30, 1983, when a complete report
will be submitted.

There is no change to the Interim Report at this time.

Very truly yours,
