SUBJECT: Arkansas Nuclear One - Units 1 & 2
Docket Nos. 50-313 and 50-368
License Nos. DPR-51 and NPF-6
Senior Nuclear Management Representative

Gentlemen:

As we discussed today, I have been evaluating our management team for the past year to assure that our interfaces with the NRC are appropriate and to continue enhancing the quality of our management of activities associated with Arkansas Nuclear One. During this period, our organization has continued to gain in nuclear management experience and has focused on the strength of our Nuclear Operations Department headed by Mr. John M. Griffin, Vice President, Nuclear Operations.

To continue the development of our nuclear management organization, I have designated Mr. John Griffin to be the Senior Nuclear Management Representative for Arkansas Power & Light Company. By focusing the interface with the NRC on a senior management position which is completely dedicated to nuclear activities, I believe that the overall management of activities in support of Arkansas Nuclear One will be greatly enhanced.

All correspondence should be directed to Mr. Griffin's attention in the future in order that he may direct the preparation of our response to the NRC. As the Senior Management Representative, Mr. Griffin will have the primary signature authority for all NRC matters which require the signature of a company officer.

Thank you for your thoughts on this change. We would be very pleased to have you and your staff come to our offices in Little Rock to discuss this organizational change and the activities we have planned in response to Mr. DeYoung's order.

Very truly yours,
