Office of Nuclear Reactor Regulation
Attention: Mr. Steven A. Varga, Chief
Operating Reactors Branch #1
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Varga:

Re: Turkey Point Units 3 & 4
Docket Nos. 50-250 & 50-251
Post-TMI Requirements
Control Room Habitability

Your letter of January 6, 1983 concerning Control Room Habitability stated that you were unable to determine the acceptability of our proposed control room design based on the information provided and requested additional information. Our architect-engineer has been requested to evaluate your concerns as described in the enclosure to your letter. It is expected that this evaluation will be completed on a schedule consistent with a submittal to you on or before August 31, 1983. This submittal will consist of one of the following:

1. Justification for our control room as it is currently designed;
2. Proposed design modification to resolve your concerns;
3. A combination of 1 and 2 above.

Please note that we are expecting to complete the Control Room Habitability modifications previously committed to by July 1, 1983.

Very truly yours,

A handwritten signature in dark ink, appearing to read "Robert E. Uhrig". The signature is fluid and cursive, with the first name "Robert" being more prominent.

Robert E. Uhrig
