Hal Bernard  
Standardization and Special  
Projects Branch  
Division of Licensing  
U.S.N.R.C.  
Washington, D.C. 20555

Dear Mr. Bernard:

I am pleased to announce that by letter of 25 February 83 Donald E. Feltz has officially accepted the position of Director of the Nuclear Science Center here at Texas A&M University. He had held the position of Acting-Director since June of 1982.

As you are probably aware, Mr. Feltz has over two decades of experience with the Nuclear Science Center Reactor. He is thoroughly qualified on the basis of experience and ability for the job. It is important to emphasize that Mr. Feltz has the full backing, support, and charge from the administration here to see that the NSC is operated in a safe and professional manner.

If I can provide you with other information on this matter, please let me know.

Yours truly,

Carl A. Erdman  
Professor and Head
