1 and 2); Docket Nos. 50-440 and 50-441

Dear Mr. Wilt:

The purpose of this letter is to update Applicants' February 5, 1982 answer to Interrogatory #3 of Sunflower Alliance, Inc., et al. First Set of Interrogatories to Applicants, dated December 2, 1981. The interrogatory asked Applicants to demonstrate that "'mutually supportive [emergency] planning and preparedness arrangements'" have been made and to "[p]rovide full documentation to support the response to this interrogatory." In their answer, Applicants said that the county emergency response plans still were being developed.

Dear Mr. Anderson:

The Radiological Emergency Response Plans for Lake, Ashtabula and Geauga Counties in Ohio are hereby submitted for the informal review by the Region V Radiological Assistance Committee.

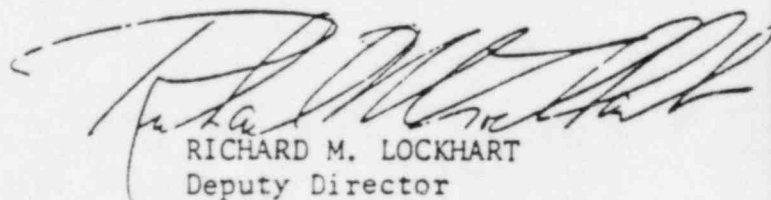

These plans have been developed over a period of eighteen months, and the Ohio Disaster Services Agency has worked closely with the consultants in developing the plans. The Ohio DSA comments have been included in the current versions of the plans as submitted. This action thus represents Ohio DSA's review and comments.

The RAC comments from the initial informal review should be forwarded to Ohio DSA either collectively for all counties or on an individual county basis. The Ohio DSA will then insure the adequate response measures and schedules are met.

It is hoped that a progressive series of actions will lead to plans that can be exercised in late spring of 1984 (April 1984 as a tentative time as of the date of this letter).

If there are questions on these plans, please contact our office.
