Joseph M. Farley Nuclear Plant - Unit 1
Reactor Containment Building Integrated Leak Rate Test

Enclosed is the Joseph M. Farley Nuclear Plant Unit 1 fifth periodic Reactor Containment Building integrated Leak Rate Test Report. This report describes and summarizes the Integrated Leak Rate Test (ILRT) activities performed as a part of the Unit 1 twelfth refueling outage.

Other pertinent report information, including, as applicable, test plans and schedules, test results and reports, and test methods and procedures, is available at Farley Nuclear Plant for review.

If there are any questions, or if additional information is needed, please advise.

Respectfully submitted,

Dave Morey
