Dear Sir:

Three Mile Island Nuclear Station, Unit 1 (TMI-1)
Operating License No. DPR-50
Docket No. 50-289
IE Bulletin 82-04

This letter is in response to IE Bulletin 82-04 "Deficiencies in Primary Containment Electrical Penetration Assemblies".

There are no electrical primary containment penetrations which were manufactured by the Bunker Ramo Company in use or planned for use at TMI-1. Therefore, per the instructions in the Bulletin, we so state and consider the Bulletin closed. The statement made above is correct to the best of my knowledge, information and belief.

Sincerely,

H. D. Hukill
Director, TMI-1
