Public Service Electric and Gas Company P.O. Box 236, Hancocks Bridge, NJ 08039 609 935-6010
May 5, 1983

The Office of the Regional Administrator
U.S. Nuclear Regulatory Commission
631 Park Avenue
King of Prussia, Pennsylvania 19406

Dear Sir:

SALEM GENERATING STATION
UNIT NOS. 1 AND 2
DOCKET NOS. 50-272; 50-311
INSPECTION NOS. 83-08; 83-07

Public Service Electric and Gas Company is in receipt of your letter with the enclosed Notice of Violation dated April 5, 1983. This letter constitutes our response to that document.

Because PSE&G considers any security infraction to be a matter of serious concern, immediate remedial action was taken as noted in your letter and documented in Attachment A.

Attachment B is our request and rationale for a reduction in severity level.

In accordance with 10 CFR 73.21 of the NRC's regulations, documentation of security measures for the physical protection of special nuclear materials and certain plant equipment vital to the safety of production or utilization facilities is deemed to be Safeguards Information. Each person who produces, receives, or acquires Safeguards Information is required to ensure that it is protected against unauthorized disclosure. The attachments to this letter have been determined to contain Safeguards Information; therefore, they must not be released for public disclosure.

Sincerely,

R. A. Uderitz
