Mr. Dennis Crutchfield, Chief  
Operating Reactor Branch No. 5  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Crutchfield:

Subject: Oyster Creek Nuclear Generating Station  
Appendix J to 10 CFR Part 50

With respect to your letter of March 4, 1982, please be advised that GPU Nuclear will not be submitting the requested Technical Specifications within 30 days of receipt of your letter. The allotted response time is inadequate.

As discussed in our previous submittals, modifications to the plant are required in order to be in compliance with the requirements of Appendix J. The modifications are scheduled to be completed during our Cycle 10 refueling outage. It is our intent to provide you with the appropriate Technical Specifications prior to the completion of the Cycle 10 refueling outage.

If you have any questions concerning this matter, please contact Mr. J. Knubel at (201) 299-2264.

Very truly yours,

P. B. Fiedler  
Vice President  
Director - Oyster Creek
