NUCLEAR ENERGY LIABILITY INSURANCE

MUTUAL ATOMIC ENERGY LIABILITY UNDERWRITERS

AMENDMENTS OF DEFINITION OF "NUCLEAR ENERGY
HAZARD" AND PART OF CONDITION 4, "LIMITATION
OF LIABILITY: COMMON OCCURRENCE"
(Indemnified Nuclear Facility)

It is agreed that:

1. In Insuring Agreement III, "DEFINITIONS", solely with respect to an "insured shipment" to which this policy applies as proof of financial protection required by the Nuclear Regulatory Commission, Subdivision (2) of the definition of "nuclear energy hazard", as amended, is further amended to read:
 - (2) the nuclear material is in an insured shipment which is away from any other nuclear facility and is in the course of transportation, including the handling and temporary storage incidental thereto, within
 - (a) the territorial limits of the United States of America, its territories or possessions, or Puerto Rico; or
 - (b) international waters or airspace, provided that the nuclear material is in the course of transportation between two points located within the territorial limits described in (a) above and there are no deviations in the course of the transportation for the purpose of going to any other country, state or nation, except a deviation in the course of said transportation for the purpose of going to or returning from a port or place of refuge as the result of an emergency.
2. Subdivision (b) of Condition 4, "LIMITATION OF LIABILITY: COMMON OCCURRENCE", as amended, is replaced by the following:
 - (b) source material, special nuclear material, spent fuel, waste, or tailings or wastes produced by the extraction or concentration of uranium or thorium from any ore processed primarily for its source material content in the course of transportation for which insurance is afforded under this policy and also arising out of such properties of other source material, special nuclear material, spent fuel, waste, or tailings or wastes produced by the extraction or concentration of uranium or thorium from any ore

processed primarily for its source material content in the course of transportation for which insurance is afforded under one or more other Nuclear Energy Liability Policies (Facility Form) issued by Mutual Atomic Energy Liability Underwriters.
