Mr. Sohan Garg
Bureau of Water Management
Department of Environmental Resources
Suite 6010, Lee Park
555 North Lane
Conshohocken, PA 19428

Dear Mr. Garg:

Subject: Limerick Generating Station NPDES Permit No. PA0051926

This letter is being sent as a follow up to a telephone conversation between yourself, Charlie Rehm, of PaDER, and Steve Jordan, of Betz Industrial, concerning the approval of the Betz chemical additive PEC10 at Limerick Generating Station. Based on your discussions with Charlie and Steve, we are requesting the approval to use PEC10 be based on a zinc effluent limitation at outfall 001 and the usage rate condition for the product be removed. Please amend your approval letter dated June 27, 1994, to reflect this change.

A copy of this letter (including any attachments or enclosures) is being sent to the U.S. Nuclear Regulatory Commission (USNRC) in accordance with the Limerick Generating Station, Units 1 and 2, Environmental Protection Plan, Section 3.2, which stipulates that USNRC shall receive a copy of any proposed changes to the NPDES permit at the same time that the permitting agency is notified.

If you have any questions or require additional information, please contact me at (215) 841-5177.

Sincerely,

Robert M. Matty, Jr.
Engineer
