In the Matter of
Georgia Power Company
(Vogtle Electric Generating Plant, Units 1 & 2)
Docket Nos. 50-424-OLA-3, 50-425-OLA-3

Dear Michael:

In your recent responses to GPC's requests for admissions, you object to the admissibility by Licensee of portions of tape recordings or transcripts for the truth of the matter asserted therein with respect to statements by GPC employees. You suggest, however, that any such statements may be introduced by Intervenor as admissions.

This type of gamesmanship does nothing to advance this proceeding. The tapes and transcripts are important evidence and all relevant portions should be admissible for the truth of the matters asserted therein. Because the recordings are contemporaneous and the participants (with the exception of Mr. Mosbaugh) were unaware that they were being recorded, they should be deemed sufficiently reliable. Quite frankly, the only person who had any reason not to be candid during the recorded conversations was Mr. Mosbaugh, because he was the only person who knew that the conversations were being recorded.

Please note that recorded statements by GPC employees are not admissions by GPC. We are nevertheless willing to allow relevant recorded statements to be introduced into evidence, although they may technically be hearsay, so that the Board can hear all the evidence. We believe and expect, however, that all such statements--those supporting your views and those supporting

ours--should be heard. The Board is quite capable of according proper weight to those statements. If you disagree, I suggest that we place this issue on the Board's agenda.

Sincerely,

David R. Lewis
Counsel for Licensee
