RE: Notice of Violation, Docket 50-156, dated 4 May 1983

Dear Sirs:

All copies of the currently approved security plan that could be located have been retrieved and either destroyed or stamped and stored in compliance with 10 CFR 73.21. Several copies which had been distributed to members of the Reactor Safety Committee prior to January 20, 1982 could not be located in the members' files and are assumed to have been disposed of over the time period since initial distribution of the draft on December 20, 1973. Corrective actions as described were completed on May 6, 1983.

Very truly yours,

R. J. Cashwell
Reactor Director
