Docket Nos. 50-445.
and 50-446

CASE'S FIFTH SET OF INTERROGATORIES
AND REQUESTS TO PRODUCE TO NRC STAFF

As indicated in CASE's 4/28/83 Fourth Set of Interrogatories and Requests to Produce to NRC Staff (bottom of page 2, continued on page 3), CASE hereby files this additional set of interrogatories and requests to produce regarding the "CAT Report" (Construction Appraisal Team Inspection Report 50-445/83-18, 50-446/83-12). The manner in which the interrogatories should be answered is the same as set forth in CASE's Fourth Set. See important NOTE on page 3.

CASE'S INTERROGATORIES AND REQUESTS TO PRODUCE TO NRC STAFF

We have indicated at the beginning of each item the location in the CAT Report.

1. (Page II-1.) Provide documentation showing the location of each of the cable runs selected by the CAT team, including what system each belongs to.
2. (Page II-2,a.) On the tray numbers listed with improperly spaced medium voltage power cables, provide the following information:
 - (a) Where are they located (including what building they are in)?
 - (b) What system do they belong to?
 - (c) A drawing of each cable's location (if readily available).

3. (Page II-3, d.) The CAT inspectors identified several runs of cable without specified supports. Which runs were they, where are they located, and what system are they part of?
4. (Page II-4. e., last paragraph, second sentence from end.) What run of cable was pulled and was not the cable it was supposed to be, and where was it located?
5. (Page II-7.b.) Provide the QC records associated with inspections of these four penetration assemblies.
6. (Page II-12, listing about 2/3-way down page.) Where are these cable tray segments located (i.e., where is Train A located, and where is corresponding Train B located)?
7. (Page II-13, listing near top of page.) Where are these cable trays located?
8. (Page III-11, second paragraph.) Provide a copy of procedure DFP-TUSI-003.
9. (Page IV-5, listing at top.) Provide drawings (at the time of the CAT inspection and any subsequent drawings) of Hanger No.:
CB-807-2N-A
CB-807-2N-B
SGI-852-1J-1S
SGI-852-1J-2B
10. (Page IV-5. b.) Provide a copy of Bahnson sketch ISO-001.
11. (Page IV-5.a., last sentence.) Provide copies of:
 - (a) the 2/28/83 licensee audit of the installed HVAC system.
 - (b) the 10 CFR 50.55(e) report which was filed by the licensee.

12. (Page IV-6, c.) Provide copies of the following:
 - (a) Bahnson procedure QCI-CPSES-009.
 - (b) Gibbs and Hill specification 2323-MS-85(Bahnson contract requirements).
 - (c) AWS D19.0, "Welding Zinc-Coated Steel".
13. (Page V-1, B.1.) Provide the concrete placement record packages for the five concrete placements listed.
14. (Page VI-5.2, third paragraph from top of page.) Provide copies of all memos, reports, or other documents regarding consultations with chemical engineering personnel of Dow Chemical Company and Westinghouse.

NOTE: The preceding is a list of requests made to Applicants in CASE's 6/4/83 Fifteenth Set (included in this same mailing). We include them only for the Staff's convenience should it be necessary for the Staff to assist the Applicants in identifying the items requested so that the Applicants can furnish them. We do not believe that it will be necessary for the Staff to actually supply any of the preceding; however, it is impossible for CASE to determine which items can be supplied by Applicants without assistance from the Staff and which items will have to be identified by the Staff.

The following can be supplied only by the Staff:

15. Provide the detailed inspection plan which each inspector developed to ensure full coverage of the assigned areas which were inspected; or whatever inspection plan materials were utilized in this regard.

Respectfully submitted,

(Mrs.) Juanita Ellis, President
