Mr. Harold R. Denton, Director

U.S. Nuclear Regulatory Commission

Subject: Virgil C. Summer Nuclear Station  
Docket No. 50/395  
Operating License No. NPF-12  
Withdrawal of Requests for  
Changes to Technical Specifications

Dear Mr. Denton:

In letters to the NRC dated October 10, 1982 and February 15, 1983, South Carolina Electric and Gas Company (SCE&G) requested changes to Technical Specification Sections 3.4.9.3, 3.2.3, and Table 3.3-3 respectively. Because of our increased experience in plant operations, SCE&G has determined that the above requested changes to the Virgil C. Summer Technical Specifications are no longer required. We, therefore, withdraw our requests for changes to Sections 3.4.9.3 and 3.2.3 and Table 3.3-3.

If you have any questions, please let us know.

Very truly yours,

O. W. Dixon, Jr.
