Dear Sir:

Our letters of August 9 (Reference 2) and August 25 (Reference 3) discussed the schedule of several NUREG-0737 items originally requested by the NRC in Reference 1. For the reasons described below, we now find it necessary to change the schedule for the following items:

II.B.3.2 Post Accident Sampling Modification

II.F.1.6 Containment Hydrogen Concentration Monitor

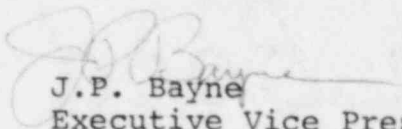

III.A.2.2 Meteorological Data

A046

If you have any further questions regarding this subject,
please contact J.A. Gray, Jr. of my staff.

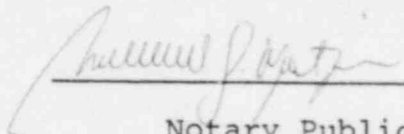

Very truly yours,

MITCHELL J. WEINSTEIN
Notary Public, State of New York
No. 30-8745329
Qualified in Nassau County
Commission Expires March 30, 1983

J.P. Bayne
Executive Vice President
Nuclear Generation

State of New York
County of Westchester

Subscribed and sworn to before
me this day 23 of December 1982

Notary Public

cc: Mr. J. Linville
Resident Inspector
U.S. Nuclear Regulatory Commission
P.O. Box 136
Lycoming, NY 13093

II.B.3.2 Post Accident Sampling Modifications

A post accident sampling system modification to the FitzPatrick plant is currently in progress, and a large portion of the work has been completed. Due to vendor delays, a change of general maintenance contractor, and the fact that it has not been possible to do heat tracing in parallel with mechanical work as originally planned, the modification is scheduled to be completed by the end of the refueling outage. This outage is scheduled to begin May 1982.

Existing compensating measures are discussed in Reference 4.

II.F.1.6 Containment Hydrogen Concentration Monitor

The schedule for the containment hydrogen concentration monitor has been affected by the same delays as the post accident sampling modifications. This item is now scheduled for completion by the end of the refueling outage.

Reference 4 contains existing compensating measures for this item as well.

III.A.2.2 Meteorological Data

This modification is being done in conjunction with Niagara Mohawk Power Corporation. The Power Authority's schedule has been affected by delays in Niagara Mohawk's portion of the project. We are currently evaluating all possible alternatives to bring this work to completion, and will notify you of the revised schedule as soon as it is available.
