Re: Texas Utilities Generating Company, et al.  
(Comanche Peak Steam Electric Station,  
Units 1 and 2), Docket Nos. 50-445 and 50-446

Gentlemen:

Applicants hereby transmit their testimony regarding the NRC Construction Appraisal Team ("CAT") Report and two documents providing responses to certain Board inquiries. We are transmitting these materials to all parties and Board members for receipt on June 7, 1983, in accordance with the schedule established by the Board.

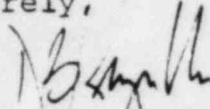

Applicants' testimony regarding the CAT Report is sponsored by Messrs. C. Thomas Brandt, Ronald G. Tolson and Antonio Vega, who will be presented as a panel at the hearing session scheduled to commence June 13, 1983. Each of these individuals has previously testified in this proceeding.

The other documents transmitted herewith are (1) "Applicants' Response to Board Inquiry Regarding Iterative Design Process for Piping," and (2) "Affidavit of John C. Finneran Regarding Board Inquiries Concerning Status of Pipe Support Design Verification and Unstable Supports." These

DS03

documents respond to certain Board inquiries arising from,  
and commitments made by Applicants during, the hearing  
session in May.

Sincerely,

Nicholas S. Reynolds  
Counsel for Applicants
