Gentlemen:

This letter constitutes a follow-up to the December 20, 1982 telephone conversation between Mr. E. R. Schweibinz of the NRC and Mr. F. K. Pfeifer of CG&E concerning the subject condition, initially reported to the Commission on November 26, 1982 as a potentially reportable deficiency under 10CFR50.55(e).

In the December 20, 1982 telephone conversation, Mr. Schweibinz was advised that additional review of the condition has determined that it is not reportable under 10CFR50.55(e).

Additional information to support this conclusion is available for NRC review in the CG&E Quality Assurance Department.

Very truly yours,

THE CINCINNATI GAS & ELECTRIC COMPANY
