50-278

Mr. John F. Stolz, Chief
Operating Reactors Branch #4
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20055

SUBJECT: Peach Bottom Reactor Protection System (RPS)
Power Modification

- References: (1) Letter to J. F. Stolz from S. L. Daltroff dated March 30, 1983
- (2) Telephone Conversation between Tqbal Ahmed (NRC) and William Birely (PECo) on May 11, 1983
- (3) Application for Amendment of Operating License Requesting Change to Peach Bottom Technical Specifications Relating to the Reactor Protection System, Filed December 23, 1981

Dear Mr. Stolz:

In a letter (Reference 1), Philadelphia Electric Company proposed a change to an Application for Amendment to Peach Bottom's Operating Licenses DPR-44 and DPR-56. In a telephone conversation (Reference 2), a member of your staff requested that a change be made to the limiting condition of operation to make the application consistent with the model technical specification. After review of this request, we agreed to revise

this limiting condition of operation. Attached you will find the two revised pages to be incorporated into our Application for Amendment (Reference 3).

If you have any questions or require additional information, please do not hesitate to call.

Very truly yours,
