UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION

Before the Atomic Safety and Licensing Board

In the Matter of)

LONG ISLAND LIGHTING COMPANY)

(Shoreham Nuclear Power Station,)
Unit 1))

Docket No. 50-322 (OL)
(Emergency Planning)

LILCO'S STATUS REPORT ON THE
SCHEDULE FOR FILING
EMERGENCY PLANNING CONTENTIONS

In its "Order Confirming Adjustment in Schedule to File Contentions," dated May 5, 1983, the Licensing Board with authority over the other issues in this case granted Suffolk County's request for additional time to draft contentions, extending that time by one week to a date four weeks after receipt of LILCO's revised emergency plan. The Board also ordered that

[w]ithin two weeks after receipt of LILCO's revised plan, the parties shall, on a coordinated basis, report to the Board their agreement or disagreement on whether the four week period for receipt of draft contentions should be adjusted slightly, in either direction, due to the unexpectedly concise or extensive content of LILCO's revision to its emergency plan.

On Thursday, June 2, 1983, counsel for LILCO, Suffolk County, the Town of Southampton, and the NRC Staff discussed by conference call^{1/} the status report due the Board from the

^{1/} Counsel for Suffolk County stated during the conference call that counsel for SOC and NSC had been informed of the call but were unable to participate.

parties regarding the schedule for submitting draft contentions. Suffolk County suggested during this call that it required an additional six weeks to review the plans served by LILCO on May 26, 1983, thus extending the date draft contentions would be due to mid-August. LILCO opposed this lengthy extension.

On Monday, June 6, 1983, counsel for the County indicated in a call with LILCO's counsel that the intervenors were filing a status report on June 8 or 9 without LILCO^{2/} because of the difference in position among the parties, and that LILCO should file its own status report stating its position on the schedule. Counsel for the County also indicated during the June 6 call that, while its precise position had not yet been formulated, it intended to suggest in its status report that filing contentions on certain of the plans before the Board would be premature or inappropriate.

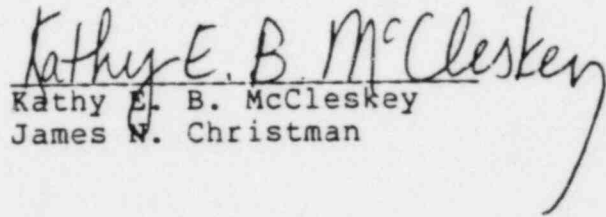

It continues to be LILCO's position that (1) the four weeks allowed by the Board is ample time in which to produce draft contentions and (2) those contentions should address the LILCO-County plan and the LILCO interim plans. With the power plant scheduled to be physically ready to load fuel by August, the scheduling of the remaining emergency planning litigation is becoming of increasing concern to LILCO. In light of the nature of the filings anticipated from the intervenors, LILCO

^{2/} Counsel for Suffolk County was unsure whether the intervenors would file a joint report or separate reports.

requests that this Board allow it to respond in writing on Monday, June 13, 1983, to the intervenors' status report.

Counsel for NRC Staff has authorized us to state it joins in LILCO's status report to the Board, and that it too would like to respond on Monday, June 13 to the intervenors' status report.

Respectfully submitted,

Kathy E. B. McCleskey
James N. Christman
