Clarification of Tech Spec Changes

Gentlemen:

The following is provided to document the recent conversation between our Mr. Ted Enos and your Mr. Charles Hackney.

Our recent Technical Specification Change Request dated March 15, 1983 (ØCANØ383Ø9) proposes to change ANO-1 Specification 6.5.2.8.d and ANO-2 Specification 6.5.2.8.e to increase the frequency of audits of "the Facility Emergency Plan and implementing procedures..." to an annual basis.

This letter is provided to inform you that AP&L interprets this specification to apply to both the Emergency Plan and the Contingency Plan.

Very truly yours,

John R. Marshall  
Manager, Licensing
