BVPS Physical Security Plan (PSP)

Enclosed are three corrected pages related to Revision 21 to Issue 4 of the Beaver Valley Power Station Physical Security Plan (PSP) (Base, Contingency and Training & Qualification Plans).

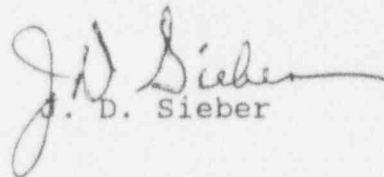

Revision 21 was previously submitted on June 8, 1994 in accordance with 10 CFR 50.54(p)(2). Since that time we have decided to maintain our present program of requirements for vehicle access. Please replace pages 3-18, 3-21 and 5-9 of our previous submittal with the attached three pages to reflect this position.

These changes, since they do not decrease the safeguards effectiveness of the Physical Security Plan, are being submitted in accordance with 10 CFR 50.54(p)(2).

The enclosed materials are considered proprietary under the provision of 10 CFR 2.790(d), and Safeguards Information under the provisions of 10 CFR 73.21, and are thereby exempt from public disclosure.

If you have any questions concerning this matter, please contact Mike Johnston at (412) 393-7812.

Sincerely,
