Dear Sir,

I'm going to make this brief. As a lifelong resident of Middletown I try to stay informed of what I think affects my home + family.

I've tried to read all the latest information on what's going on at TMT.

Recently I read about the past employee at TMT, I believe his name is Hartman, that told about the leak rate being changed at Unit II prior to the accident. This is new information to me

but not to many others.

I find this to be a
criminal act by G.P.A.

I hope you and the other
commissioner agree.

I'm getting very upset
with the NRC staff and
each one of you commissioners
who seem to be unaffected
by the growing list of
things wrong at TMI I &
TMI II.

As a parent, I try to
teach my children to use
the good common sense
they were born ^{with} and the
difference between right and
wrong. These things the NRC

staff seems to have forgotten.
I can't believe that we
are still talking restart at
TMI I. GFA's management is
criminal and you people
should see this, it's so
simple. Just do what
you know is right!

4. Mr. Kelenky,
seem to be
only 72 in
commission
Please keep
for us!
