Dear Mr. Laurenson,

As a resident of Long Island, I am writing to you to express my concern regarding the utility-sponsored emergency (evacuation) plan recently submitted to the NRC by Lico.

I understand that the Commission has assigned an entirely new licensing board - three new unfamiliar with the Shoreham case - to hear the emergency planning litigation. Although the board is not legally bound to hold further sessions, I feel (as do many of my neighbors) that the new board needs to hear from the people.

In view of the above, I feel it necessary to present you with a formal request for an additional "limited appearance hearing" open to the public to be held on Long Island before formal litigation begins.

I ask, Mr. Laurenson, that you please seriously consider this request in all fairness to our concerned community. I have attended previous sessions of this kind and I believe that they have undoubtedly been beneficial to all parties involved.

Thanking you in advance for your time and consideration.

Sincerely,
Marc R. Petit

Dear Chairman Laurensen,

Now that a new licensing board
has been set up to judge the
evocation of Shoreham, the
Citizens of Long Island MUST BE
given a chance to speak. There
must be New PUBLIC LIMITED
APPEARANCE HEARINGS held
on Long Island so those cruelly
affected can be heard.

Remember, please, this is only
ELECTRICITY - not such a grave
issue that we can't solve it -
WITHOUT SHOREHAM !.

DEAR Mr. Laurenson;

I am a resident of eastern Long Island. I live fifteen miles from the Shoreham nuclear power plant. Thus, I and my family have a major interest in the licensing of this plant. Public "limited appearance hearings" should be held on Long Island before formal litigation begins.

Thank-you for your attention.

Dear Mr. Laursen,

I am writing to ask that public "limited appearance hearings" be held on Long Island before formal litigation begins.

I have a house in Suffolk County less than six miles from the Shoreham Nuclear Power Plant. I do not want this plant to open. It is very dangerous for those of us who live East of the plant. Our only exit is the Atlantic Ocean. It is outrageous that your committee would endanger the lives of

Thousands of people,
like ... should be
forced to abandon
that plant forever.

Mr. Laurenson,

As Chairman of the Shoreham Nuclear Power Plant licensing board, I write to you in an appeal to listen to the public! I am requesting that limited appearance hearings be held on Long Island before formal litigation begins. It is important that your board be familiar with the sentiments of those citizens that live their daily lives in the area you are considering for emergency evacuation planning.

Thank-you for considering this matter!

Sincerely,

Dear Sir:

As residents of the eastern end of Long Island we are concerned about the safety and the Need for the Lilco Shoreham Nuclear plant. The East End is forgotten. Retired senior citizens cannot get in a car and drive for miles for evacuation - and to where????

We therefore urge you to obtain public "Limited Appearance Hearings" to be held on Long Island before formal litigation begins.

Respectively,
