

SOUTH CAROLINA ELECTRIC & GAS COMPANY

POST OFFICE 764

COLUMBIA, SOUTH CAROLINA 29218

O. W. DIXON, JR.
VICE PRESIDENT
NUCLEAR OPERATIONS

March 2, 1983

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Virgil C. Summer Nuclear Station
Docket No. 50/395
Operating License No. NPF-12
Seismic Confirmatory Program

Dear Mr. Denton:

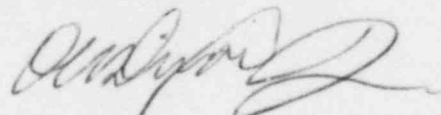

On February 1, 1983, South Carolina Electric and Gas Company (SCE&G) submitted a Seismic Confirmatory Program report to document the results obtained during the experimental phase of our program to satisfy Licensing Condition 2.C(25). The report contains two appendices, one by ERTEC, Inc. and one by URS/John A. Blume and Associates, labeled Appendix A & B respectively.

Because of a technical question involving assumptions used in the Blume section of the report (Appendix B), URS/John A. Blume and Associates is developing an addendum to the report. The target date for submittal of the Blume addendum is March 7, 1983.

In light of the time constraints within the License Condition, SCE&G requests a meeting with the Staff to discuss the results of our experimental program, as well as the question raised, on March 10, 1983. We also request that you review our submittals on this issue expeditiously and provide a written response to us after your evaluation is completed.

If you require additional information please let us know.

Yours very truly,

O. W. Dixon, Jr.
