Address And Telephone Number Changes

Gentlemen:

This letter is to inform you of 1) a change in address for Arkansas Nuclear One (ANO) and, 2) telephone number changes at ANO and our corporate offices in Jackson, Mississippi. The address change was necessary due to the implementation of a 911 emergency telephone system for the Russellville, Arkansas area. The telephone number changes are necessary due to implementation of a Uniform Dialing Plan throughout the Entergy System.

ANO's new address is :

Entergy Operations  
Arkansas Nuclear One  
1448 S. R. 333  
Russellville, AR 72801

The new address is currently in effect; however, the United States Postal Service will continue to deliver mail to the old address for several months.

Telephone number changes at ANO are scheduled for the weekend of September 3, 1994. The prefix 964 will change to 858, and all extensions currently beginning with an eight (8) will begin with a four (4). As an example, the current telephone number 964-8721 will become 858-4721, but the current number 964-3100 will have only a prefix change, becoming 858-3100.

U. S. NRC

August 12, 1994

OCAN089402 Page 2

Effective August 1, 1994, the telephone numbers for our corporate offices in Jackson, Mississippi changed from the former prefix of 984 to the new 368 prefix. Also, the first digit of all numbers, previously nine (9), changed to five (5). For example, the previous number 984-9832 is now 368-5832. Entergy informed the NRC of the corporate office changes in a letter from Jerrold G. Dewease to Dr. William D. Beckner dated July 22, 1994.

No telephone number changes will be necessary at this time for the other nuclear plants within the Entergy system, i.e., Grand Gulf Nuclear Station, Waterford 3 Steam Electric Station or River Bend Nuclear Station.

Should you have questions or comments, please contact me.

Very truly yours,

Dwight C. Mims  
Director, Licensing
