Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Crystal River Unit 3
Docket No. 50-302
Operating License No. DPR-72
Pump and Valve Program

Dear Mr. Denton:

Florida Power Corporation submitted to our project manager, Ron Hernan, during his visit on June 8, 1983, three (3) copies of changes to the Crystal River Unit 3 Pump and Valve Program. This submittal includes all of the changes agreed to in the March 2, 1983, meeting with your staff. Items that are not contained in this submittal include open items, additions due to modifications accomplished during Refuel IV and typographical corrections. These items will be included in the final submittal. The final submittal of Pump and Valve Program, including the changes discussed herein, will be forwarded to your office within 90 days following receipt of a Safety Evaluation Report on the program.

As discussed with members of your staff, Florida Power Corporation will be pleased to provide any clarification or other information as may be needed to support these reviews as we share your desire to have an approved program.

Sincerely,

G. R. Westafer
Manager
Nuclear Licensing and Fuel Management
