Please reference the Offsite Dose Calculation Manual (ODCM) for the Sequoyah Nuclear Plant. TVA has reported changes to the ODCM in the past, in accordance with Technical Specifications 6.9.1.10 and 6.14.2, which specifies change notification in the Sequoyah Monthly Operating Report. While changes will continue to be documented in this manner, we will also provide your office with changed pages to the ODCM so that you can maintain an accurate document. We have reprinted the entire ODCM which includes all revisions to date. You may destroy your old copies. Enclosed are five (5) up-to-date copies, and future revisions will be submitted periodically.

If you have any questions concerning this matter, please get in touch with K. P. Parr at FTS 858-2685.

Very truly yours,
