DCP/NRC0182
Docket No.: STN-52-003

August 9, 1994

Document Control Desk
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

ATTENTION: MR. RONALD M. SCROGGINS

SUBJECT: NRC DESIGN CERTIFICATION RULEMAKING FEES

Dear Mr. Scroggins:

Westinghouse has reviewed the July 20, 1994 letter from ABB-Combustion Engineering to the NRC concerning fees charged by the NRC for design certification rulemakings. That letter provided the ABB-Combustion Engineering position and rationale that NRC review fees for standard plant design cease to accrue to the design certification applicant upon issuance of the FDA by the NRC.

Westinghouse supports the position taken by ABB-Combustion Engineering. Your confirmation that the ABB-Combustion Engineering understanding as set forth in the attachment to their letter will be greatly appreciated.

Nicholas J. Liparulo, Manager
Nuclear Safety Regulatory and Licensing Activities
