Dear Sir:

The NRC was notified of a potentially reportable deficiency in

At that time, it was estimated that a Final Report would be available
by June 30, 1983.

Due to the extensive investigation and evaluation required, it is now
expected that this information will be finalized by August 18, 1983, at
which time a complete report will be submitted.

There is no new information or change to the Interim Report at this time.

Very truly yours,
